## Objective

To design everything. I'm not satisfied with the things as they are, so I look to change them and how they function. I mostly want to design vehicles and electronics, but creating something new for virtual worlds is also what I would prefer. I want to learn new things and grow my knowledge. My primary goal is to grow and I need a firm that helps me to move ahead while mutually benefitting from my work.

## Skills

### 2D Design

Adobe Photoshop, Adobe Indesign, Adobe Illustrator, Inkscape, GIMP

### Image Compositing

Adobe Photoshop, GIMP, Blender, Adobe After Effects

### Photography

### Web Design

HTML, CSS, JS
